AVAILABLE FOR CHIC MEMBERS

DYNAMIC PURCHASING SYSTEM (DPS)

A FLEXIBLE ALTERNATIVE ROUTE TO MARKET

CHIC has a comprehensive DPS, offering a wide selection of categories across all service areas. Contract selection and awards under the DPS must be via a competitive mini tender; CHIC will support and guide members during the tender process, all run through the CHIC eSourcing portal.

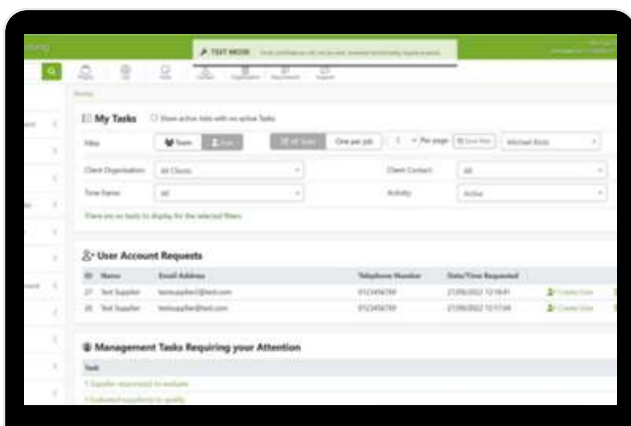

Advantages to members of using the DPS are:

- Contractors and suppliers can join the relevant category at any time
- If leaseholder consultation is required (s20 works) for a project or programme, then the DPS still enables an efficient route to market
- CHIC agrees with the member the level of engagement they require.

All CHIC tendering opportunities and contract notices can be found on the:

CHIC ESOURCING PLATFORM

All contracts procured through CHIC's DPS must be via mini tender. CHIC invites the registered DPS contractors or suppliers to tender, following PCR 2015 regulations and your agreed specification, remaining compliant at all stages in the process. Those who are interested will enter the tender process and the most advantageous tender will be awarded to deliver the required services.

MERCHANT SERVICES

FATS NO. 2021/S 000-004452

AWARDED: 05/03/21

Social housing providers are responsible for managing a wide range of services and facilities to ensure their tenants' needs are met. One of these services is the procurement of goods and materials necessary for maintaining and repairing properties, such as plumbing and heating supplies, electrical goods and building materials.

CHIC's Merchants DPS enable social housing providers to source and purchase a wide range of materials and goods required for their day to day operations in a compliant and cost effective way. Effective merchant services can offer significant cost savings for our members. By using a compliant and transparent route to market, you can benefit from competitive pricing and economies of scale. This can help to reduce the overall cost of materials and other associated costs, freeing up resources that can be used to improve other areas of service delivery.
