# TOTAL FACILITIES MANAGEMENT

NOW AVAILABLE TO MEMBERS

# DYNAMIC PURCHASING SYSTEM (DPS)

## A FLEXIBLE ALTERNATIVE ROUTE TO MARKET

CHIC has a comprehensive DPS, offering a wide selection of categories across all service areas. Contract selection and awards under the DPS must be via a competitive mini tender; CHIC will support and guide members during the tender process, all run through the CHIC eSourcing portal.

### Advantages to members of using the DPS are:

- Contractors and suppliers can join the relevant category at any time
- If leaseholder consultation is required (s20 works) for a project or programme, then the DPS still enables an efficient route to market
- CHIC agrees with the member the level of engagement they require.

All CHIC tendering opportunities and contract notices can be found on the:

## CHIC ESOURCING PLATFORM

All contracts procured through CHIC's DPS must be via mini tender. CHIC invites the registered DPS contractors or suppliers to tender, following PCR 2015 regulations and your agreed specification, remaining compliant at all stages in the process. Those who are interested will enter the tender process and the most advantageous tender will be awarded to deliver the required services.

# TOTAL FACILITIES MANAGEMENT

**FATS NO. 2019/S 047-107874**

**AWARDED: 04/03/2019**

The social housing sector faces unique challenges in maintaining and managing their estate including their corporate and serviced. With limited resources and an increasing demand for affordable housing, it is crucial for housing associations and local authorities to ensure their facilities are properly maintained to provide safe and comfortable working conditions for their staff. Total Facilities Management (TFM) is a comprehensive solution that enables organisations to manage all aspects of their facilities, including both hard and soft services. This includes everything from building management and inspections to cleaning and security.

Effective facilities management solutions can also play a crucial role in ensuring a better relationship between tenants and landlords. By providing high quality, reliable and responsive facilities management services, landlords can demonstrate their commitment to maintaining safe and comfortable properties, helping to build trust, foster positive communication and enhance tenant services. In addition, effective facilities management can help to identify and resolve maintenance issues in a timely and cost effective manner, reducing the risk to staff welfare.

To meet these challenges, organisations need a compliant route to market for their TFM services. This is where CHIC's Total Facilities Management Dynamic Purchasing System (DPS) comes in. By providing a fully compliant procurement process, CHIC ensures that members can access high quality TFM services from pre approved suppliers at competitive prices. The DPS is split into three Lots, each covering a different aspect of TFM services.

**The DPS is split into three different Lots as below:**

**Lot 1:** Hard Facilities Management

**Lot 2:** Soft Facilities Management

**Lot 3:** Total Facilities Management
